Dear [Redacted]

Thank you for addressing the Advanced Cryptologic Course (CY-500). Your remarks gave the class unique insight into the role of the Director of Central Intelligence available from no other source. The students indicated they especially enjoyed your candid comments and excellent overview of the DCI. You greatly enhanced their knowledge of the DCI's interface with the Intelligence Community. The course staff and I depend on quality speakers such as yourself to insure the continued success of our senior courses.

I hope that you enjoyed the experience of visiting our class as much as we enjoyed your brief. I look forward to you joining us at future offerings of CY-500.

Sincerely,

STAT
